Prices stated above are exclusive of GST and are subject to change. * Installation cost for carrier infrastructure only – All customer/internal infrastructure is the responsibility of the end customer directly. Bandwidth is delivered as 1:1 contention at the NTU Level – factors that may deteriorate the bandwidth are servers/firewalls and other appliances/devices that may occupy bandwidth within your site location. If required, ask us for more details of typical performance in your area. Trade Marks of AAPT Limited are used under licence. Services provided under AAPT Business Connect Standard Form of Agreement.
